

V-Steel J-Traction

Designed for loader equipment, the Bridgestone VJT tire is built to handle rugged environments. Deep tread, unique tread blocks and a nondirectional pattern all contribute to the performance you want in the rough conditions in which your loaders operate.

SPECIALIZED FEATURES

- High tread volume and deep tread optimize traction and resistance to damage in severe service conditions.
- Innovative nondirectional tread pattern provides equal traction moving forward and backward.

Sidewall Protectors —
Enhance cut resistance when
operating with heavy loads.

**Lateral and
Longitudinal Tie Bars —**
Reduce friction to help
prevent irregular center
block wear.

**Unique Vertical-Column
Center Tread Blocks —**
Minimize vibration for
operator comfort.
